AN EXTRA SESSION.

The Executive of the State has issued a extra session. The whole session is to be devoted to assaults upon corporate interests in railroading, and the "extraordinary occasion" declared is that the railroad imposing taxes upon their property.

This is the pivot upon which the whole party schemers after days of travail. It is a false premise, and none able. It is a hungry wing of the Democratic know it better than the people of this State, for the Courts established to determine issues, and do justice, have decided that what is termed "taxes upon railroad property " are not taxes, but extortionate, unjust and illegal levies, to submit to which without protest would be more than

sult not of disobedience of railroad corporations to the laws, but is the outcome of rights guaranteed them by the organic law of the nation, and the Courts of the land have so declared. From this there is no escape. Whatever of involvement the State is now subjected to is the natural sequence of demagogical efforts to deal with a given class of persons with unjust, tyrannical and unbearable discrimination. That is the long and short of the whole when the fever heat of present prejudice

and party knavery shall have abated. So far as Republicans are concerned they have every reason to be gratified that the Executive has been driven by the political inquisitors of his party to an act that has its origin in an insane prejudice. and that springs from the most stupendous believe that the sound judgment of the that he has determined to let the maniacal clamorers for the legislative sugar plums have their ardent wishes as the very best

the dominant party is the reverse being a unit. The best thought of the State is opposed to the call. And it could scarcely be otherwise. What is to be accomplished? If we are to take the San Francisco Examiner as an exponent of the anti-railroad sentiment, the proposition is to deprive railroad companies of the right to appear in Court, of the right to have wrongs redressed, of the right to appeal through the ordinary processes of the law to the established tribunals of the land, and this is practically the scheme the extra session proclamation. Of course, in this the effort will fail. No man who respects himself will so far insult his own intelligence as for a moment to entertain the idea that the legislative body can thus debar corporate or other persons of any rights they have by virtue of superior authority. To give any other view a moment's consideration is to

It resolves itself, therefore, into the question whether a State Legislature can prevent a person from resorting to the Courts of the land for the redress of grievances? So obvious is the answer that we cannot offend intelligence by even suggesting it.

If appeal were made to the honest, sober thinking men of the State, the offer to pay all the taxes of 1880-81 and 1882 would be accepted. fails to cure. MIDDLE-AGED MEN. There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sedimen, will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin mikish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a nealthy restoration of the genito-urinary organs.
